

ABG: Where the Future Belongs...

ABG Shipyard is India's largest ship building company, certified by DNV for ISO 9001: 2000. ABG is the only shipyard in India which is having a ship lift facility, which enables operational flexibility. ABG Shipyard had constructed and delivered 97

vessels over the last 16 years from its state of the art shipyard situated at Magdalla, Surat. For its outstanding contribution in earning foreign exchange, the company has been awarded "Best Exporter Award" for three consecutive years from Engineering Export Promotion Council of India (EEPCI). Presently the company is building 3 pollution control vessels for Indian Coast Guard. The first vessel of the series : Yard 221 "Samudra Prahari" was launched 20th March 07 in a Gala function. Once inducted this will be the first of its kind in whole Asia : Pacific region. The company has embarked upon a major expansion of the facilities by setting up a state of the art modern shipyard at Jageshwar (Dahej). The salient features of the new shipyard facilities are : Build /repair vessels of Panamax and Aframax size vessels as well as higher class ships / bulk carriers. Produce 8 vessels of size upto 1,20,000 DWT / year. To set up modern Off Shore Support Facilities. Generate employment for 5000 semi and skilled persons.
